Strategy Comparison

| Strategy | ROI (100% Equity) | Annual Net Profit (NOI) |

Strategy A: Standard Rental	4.2%	€ 39,690
Strategy B: Managed Boutique Hotel	10.0%	€ 94,500

Strategy Details

Strategy A: Conservative (Long-term)

- * Target: Passive investors seeking capital preservation with minimal management.
- * Model: Standard seasonal or long-term residential leases.
- * Performance: Lower yields due to the seasonal nature of the region if not managed professionally.

Strategy B: High-Yield (Boutique Apart-Hotel)

- * Target: Professional investors looking for optimized cash flow and "Value-Add" through renovation.
- * Model: Short-term serviced apartments managed via a professional hospitality entity.
- * Metrics: ADR (Daily Rate) € 175 | Occupancy 75% (High season & Shoulder months).
- * Advantage: Capitalizes on the lack of premium small-scale accommodation in Sivota. Professional management ensures 10% net yield after all operating expenses.
