

INVESTMENT TEASER: AURUM RESIDENCE IOANNINA

High-Yield Smart Investment in the Historic Center

LOCATION: Ioannina, Greece (150 meters from the old Ioannina Fortress)

ASSET: Automated boutique hotel / Smart-hotel

STATUS: Reconstruction project (compliant with Greek Golden Visa)

USP

- **Rare Location:** Situated in the heart of the city's cultural life, just 150 meters from the historic fortress.
- **High Liquidity:** Exceptional demand from both tourists and business travelers due to its position at the intersection of major commercial streets with high foot traffic.
- **Smart Technology:** An automated management model (Self Check-in) minimizes operational overhead and ensures a modern guest experience.
- **Flexibility and Scale:** A sophisticated architectural concept allows for 6 to 8 units and includes an exploitable rooftop to maximize ADR.

KEY METRICS

- **Target ROI:** 9.65% (per annum)
- **Total CAPEX:** €1,170,000
- **Projected Annual NOI:** €112,931

PROPERTY PARAMETERS

- **Total Area:** ~340 sqm
- **Floors:** Semi-basement + 4 Floors + Exploitable rooftop with panoramic potential
- **Format:** Smart-hotel with 6–8 units (keys)

ARCHITECTURAL CONCEPT (RECONSTRUCTION PLAN)

- **3rd & 4th Floors:** 4 modern studios of 35 sqm each.
- **1st & 2nd Floors:** Reconstruction into 2 spacious lofts of 65 sqm each.
- **Semi-basement:** Option A (technical floor) or Option B (2 additional studios of 25 sqm each).
- **Rooftop:** Lounge area for guest relaxation and added value.

INVESTMENT STRUCTURE

- **Property Purchase:** €750,000

- **Taxes & Closing Costs (7%):** €52,500
- **Renovation, Equipment & Launch:** €367,500

**This property fully complies with the requirements of the Greek Golden Visa program.*

WHY INVEST NOW

1. **Capital Protection and High Capitalization:** Entering the project at the reconstruction stage allows you to secure a price per square meter below the market rate for a finished property. Given the scarcity of development sites in Ioannina's historic center, the asset's value will significantly increase upon completion and commissioning.
2. **Growing Tourism Demand and Supply Shortage:** Ioannina is actively developing as a year-round destination (City Break, cultural, and eco-tourism). Amid steady growth in tourist arrivals, there is a sharp shortage of high-tech "Smart-Luxury" boutique hotels, ensuring high occupancy and lack of direct competition.
3. **Golden Visa Opportunity Window:** Against the backdrop of tightening EU residency rules and rising investment thresholds in other parts of Greece, this project remains one of the most reliable and efficient ways to obtain EU residency under current favorable conditions.
