

INVESTMENT TEASER: MYTIKAS SEAFRONT ESTATE

Exclusive Development Project on the Ionian Seafront

LOCATION: Mytikas, Preveza, Greece.

ASSET: Land plot of 11,326 m² on a unique natural 8 meter rock elevation

STATUS: Independent development project. Privately owned land, full documentation package ready for transaction.

1. UNIQUE SELLING PROPOSITION (USP)

- **"Amphitheater Effect":** Situated on a natural plateau 8 meters above sea level, guaranteeing unobstructed sunset and panoramic sea views for 100% of the guestrooms.
- **Privacy & Security:** The elevation provides a natural barrier, ensuring absolute privacy and safety from coastal erosion or climate-related sea-level changes.
- **Scarce Asset:** The Mytikas coastline is almost fully developed; this plot represents one of the last remaining opportunities for large-scale high-end development.
- **Strategic Access:** 15 minutes from Aktion International Airport (PVK), 8 km from Preveza town and its premium marina.

2. PROJECT PARAMETERS

- **Land Acquisition Cost:** €2,900,000.
- **Commercial Building Capacity:** 2,265 m² (above-ground GFA) + extensive basement levels.
- **Target Segment:** Smart-Luxury / Eco-Design Boutique Hotel.

3. DEVELOPMENT SCENARIOS

We present two strategic development paths optimized for different ROI goals:

SCENARIO A: "Premium Combo"

Focus on maximum ADR (Average Daily Rate) and brand capitalization.

- **Inventory:** 42 Keys (24 Standards at 35 m² + 18 Suites at 45–60 m² with private infinity pools).
- **Total CAPEX:** ~€9.75M.
- **Projected Annual EBITDA:** ~€1.57M.
- **Value Add:** Creation of a "Trophy Asset." The integration of 18 private pools on a cliffside makes the property unique in the region, significantly driving exit valuation.

SCENARIO B: "Maximum Capacity"

Focus on rapid ROI and maximized operational cash flow.

- **Inventory:** 52 Keys (50 Standards at 30 m² + 2 Flagship Grand Suites at 50 m²).
- **Total CAPEX:** ~€10.0M.
- **Projected Annual EBITDA:** ~€1.75M.
- **Value Add:** Highest yield on invested capital (17%+) through optimized OPEX and a larger volume of inventory units.

4. FINANCIAL COMPARISON (Forecast)

Metric	Scenario A (42 Keys)	Scenario B (52 Keys)
Total Investment (Land + Construction)	€9,750,000	€10,000,000
Estimated Annual Revenue	€2,687,000	€2,639,000
Operational Expenses (OPEX)	€1,109,000	€892,000
Net Operating Income (EBITDA)	€1,578,000	€1,747,000
Return on Investment (ROI)	~16.2%	~17.5%

5. WHY INVEST NOW?

The Preveza region is currently in a high-growth phase as an emerging luxury destination. The completion of new highway links and the expansion of PVK Airport ensure a steady increase in high-net-worth European travelers. Entering the project at this stage allows the investor to secure prime beachfront land and achieve yields significantly higher than the EU market average.
