

INVESTMENT TEASER: URBAN SUITES & SECRET GARDEN ROOFTOP

LOCATION: Ioannina, Greece. Situated at the city's most strategic commercial intersection.

ASSET: High-tech Smart-Luxury Boutique Hotel transformation. A deep renovation project converting an existing building into a 30-key premium hospitality asset.

STATUS: Off-market. Ready for deep modernization and reconfiguration.

UNIQUE SELLING PROPOSITION (USP)

Profit Geometry: Engineering a 42% increase in inventory (from 21 to 30 rooms) within the existing building envelope (~1,100 m² total GFA), maximizing revenue per square meter.

Triple-A Location: Unbeatable placement in the heart of Ioannina, ensuring high visibility and constant foot traffic from both business and leisure travelers.

Smart-Luxury Model: Full integration of state-of-the-art automation and IoT systems allows for high-margin operations with significantly reduced staffing requirements.

Operational Autonomy: The inclusion of an in-house laundry facility and a dedicated technical hub in the basement minimizes outsourcing costs and drastically reduces OPEX.

The Secret Garden: A unique 160 m² rooftop bar concept designed as an urban oasis, providing a competitive edge in the local F&B market and additional high-margin revenue.

PROPERTY SPECIFICATIONS & AREAS

The asset features a typical floor plate of approximately 190 m², optimized for high-density luxury accommodation across several levels.

Basement (190 m²): Houses the Technical Hub, Laundry, and Storage facilities, ensuring operational self-sufficiency.

Mezzanine (190 m²): Configured for 7 Residential Suites, initiating the high-efficiency room layout.

1st - 3rd Floors (570 m² total): Accommodates 21 Smart-Luxury Rooms (7 per floor), utilizing optimized floor plates.

Rooftop (190 m²): Features a 160 m² Bar Terrace ("Secret Garden") plus 2 Premium Units with exclusive views.

Total GFA: Approximately 1,140 m², delivering 30 keys plus integrated F&B and services.

FINANCIAL PARAMETERS

Investment Basis: €1,750,000. This comprehensive figure includes acquisition costs, full

renovation budget, and all closing/legal fees.

Projected Annual NOI: €331,975, reflecting the high-efficiency operational model and premium ADR potential.

Target ROE: 19.1%, representing a top-tier return for the Ioannina hospitality market.

DEVELOPMENT STRATEGY

Reconfiguration: Transformation of existing floor plates from standard 5-room layouts to 7-unit high-efficiency clusters.

Modernization: A "down-to-the-studs" renovation including all new MEP (Mechanical, Electrical, Plumbing) systems and premium interior finishes.

Technology Integration: Implementation of contactless check-in, smart climate control, and centralized management software to ensure a "lean" operational structure.
